REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: This examiner is withdrawing the previous use of the Schuette against a number of the limitations of the claimed invention. This examiner is in agreement with the applicant that element 1122 of Schuette does not read on the applicant's defined bevel slit. Moreover, elements 208 of Schuette would fail to read on the defined guide slots of the claims because the guide slots are supposed to slip a plurality of protrusions provided on the cassette. This examiner sees no indication in Schuette that the pins (i.e. protrusions) that slip into elements 208 are even provided on the cassette of Schuette (the cassette of Schuette appears to be simply two plates 1202 and 1204). Finally, leaving the issue concerning these failings of Schuette aside, the examiner agrees with the applicant that there is no motivation for utilizing the clamping means of Schuette for the electrophoresis module of Fox.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
